ALLEGANY COLLEGE OF MARYLAND

ADDENDUM NO. 3

RFP BPM059617
Turnkey Solar Photovoltaic (PV) System

Date Issued: November 19, 2026

Original Proposal Submission Deadline: Monday, November 23, 2026

1. Federal Tax Credits / Direct Pay

ACM makes no representation regarding future pursuit of Direct Pay or tax-credit incentives. Proposals should be based on the requirements stated in the RFP.

2. Domestic Content Requirements

The grant agreement does not identify any requirement that solar panels, inverters, or other equipment be manufactured in the United States, nor does it establish specific domestic-content percentages, Build America, Buy America (BABA) requirements, or manufacturing-origin restrictions applicable to this project.

The agreement does contain a provision regarding "American Manufactured Goods," which states that if the grantee is a unit of state or local government, the grant must comply with Maryland State Finance and Procurement Article §§ 14-416 and 17-303. However, the agreement itself does not specify any equipment-level domestic-content requirements or percentages.

3. Domestic Content Bonus

We are unable to confirm whether ACM intends to pursue the domestic-content bonus at this time.

4. Vendor Notification

This addendum is being made available on the Allegany College of Maryland website with the original Request for Proposal. Vendors who previously expressed interest in the project will also be notified.

5. Proposal Submission Deadline

The original proposal submission deadline remains unchanged:

Monday, November 23, 2026.

All other terms, conditions, specifications, and requirements of the original RFP remain unchanged.

Vendors should acknowledge receipt of this addendum in their proposal submission.
