## NMWC

Providing Health & Wellness  
Services to  
Allegany College  
of Maryland students,  
faculty, staff and the local  
area community!

### Health and Wellness

The Nurse Managed Wellness Clinic (NMWC) at Allegany College of Maryland (ACM) provides basic health and wellness services for the college and local community.

### Clinical Experiences

The NMWC, located in ACM's Allied Health Building, presents innovative multidisciplinary clinical experiences for students in nursing and other allied health professions with a focus on community health and wellness. Allied health students from different fields work together in supervised clinical rotations to further prepare them for a health-care environment that emphasizes disease prevention, patient education, and promotion of behaviors for healthier living.

The NMWC supports health and wellness through education with the goal that all individuals become informed self-directed consumers of health care.

*"The opportunity to provide both basic health services and clinical experiences is unique...particularly at a community college!"*

*Cheryl Nelson, NMWC Director*
