Statement of Philosophy: Advising is a process that assists students in clarifying their choices and goals and in developing educational plans for realizing these goals. It is a continuing process in which advisers help students make decisions. An important instrument in fulfilling the mission of Allegany College, advising ensures that students are aware of the comprehensive educational opportunities offered, that they acquire a sound foundation in the liberal arts and sciences, and that they acquire the knowledge and skills needed for their career choices. Recognizing that education is not restricted to traditional classroom learning, Allegany College offers comprehensive individual advising designed to heighten the quality and effectiveness of all educational experiences of every student.
