

Hello, colleagues.

I have several items to share on this beautiful spring day, but I'll be brief.

### **Positive Middle States visit.**

Thank you again to everyone who made last week's Middle States visit an enormous success. Special thanks to our fearless leaders, Jenna and Scott, their team of committee members, and our entire campus community who tirelessly prepared our self-study document and took part in the accreditation visit.

### **Remind, remind, remind.**

We want every student to graduate with a degree or certificate. Please help our learners to stay committed to their educational journey by encouraging summer and fall registration. Those reminders work!

### **Find it on SharePoint.**

Speaking of reminders, you can find key documents on the ACM employee portal, from calendars to work orders, at <https://empallegany.sharepoint.com/sites/port>.

### **Celebrate #CCMonth.**

“Smart Students Go to Community Colleges” – that's the theme of this year's national Community College Month. It's also a fact here at ACM: **We have smart, hard-working, savvy, creative, talented, and brilliant learners at our small college.** Thank you for your role in helping all students.

Read about a few of our student heroes in ACCESS ACM. Copies are being distributed to ACM locations and will be shared on social media later this week. Here's [a peak](#).

### **Stay current.**

As we get closer to the semester's end, keeping track of important dates isn't easy. View the [academic](#) and [web calendars](#) to stay on top of upcoming deadlines, institutional events, and student activities.

I hope to see you at this Saturday's Open House!

Dr. Bambara
